# QUALITY HEALTHCARE

## **Professional Standards**

London Bridge Hospital is committed to the highest standards and is supported by a comprehensive quality assurance programme. The professional standards maintained within the organisation are monitored through rigorous annual external audit.

London Bridge Hospital is regulated and inspected by the Healthcare Commission (HCC) and accredited by HQS. HQS is a quality management process enabling healthcare organisations to examine themselves critically against a nationally recognised framework of organisational standards.

The hospital has also achieved Investor in People status, an internationally recognised standard for the training and development of staff, and Clinical Pathology Accreditation (CPA) for our pathology facilities.

London Bridge Hospital was the first independent hospital to submit cardiac surgery data to the Society of Cardiothoracic Surgeons of Great Britain and Ireland database.
