

London Bridge Hospital

## GYNAECOLOGY & ASSISTED FERTILITY SERVICES

**Infertility affects at least  
20-25% of couples who  
are of reproductive age\***

This clinic, led by Miss Nataly Atalla, offers advice on fertility treatment for sub-fertile couples and a full reproductive health check, fertility potential and ovarian reserve assessment. This clinic also offers advice on treatment and end-to-end management of any gynaecological or assisted conception procedures that may be needed.

Services available at:

**Docklands Healthcare  
London Bridge Hospital**

**Miss Nataly Atalla MRCOG PhD MSc**  
**Specialist in Gynaecology & Assisted Fertility**

As a Consultant Gynaecologist specialising in infertility and assisted conception, Miss Atalla has practised her skills at some of the top assisted conception units in the private sector including Lister IVF, Assisted Reproduction & Gynaecology Clinic, London Women's Clinic and as Deputy Medical Director of The Bridge Centre.

## SERVICES

This service offers detailed consultations with fast track advice from diagnosis to treatment, including any operative or investigative procedures that may be necessary, which would be performed at London Bridge Hospital.

The clinic offers the following services:

- 3D pelvic ultrasound
- Cervical smears and infection swabs
- Cycle monitoring
- Early pregnancy scans
- Full hormonal blood tests
- Full reproductive health check
- HyCosy for tubal patency
- Male semen analysis
- Ovarian antral follicle count
- Uterine aquascans for polyps and fibroids

This **One Stop Gynaecology Clinic** provides advice and manages gynaecological problems such as pelvic pain/infection, abnormal periods, early pregnancy checks, miscarriage, menopause, sexual problems and contraception.
