Docklands Healthcare is an outpatient diagnostic centre in affiliation with London Bridge Hospital.

Meeting the exacting demands of the Canary Wharf and Docklands community

Designed to meet the exacting demands of the Canary Wharf and Docklands community, Docklands Healthcare offers an unparalleled range of premium healthcare and diagnostic services.

Drawing upon the expertise of leading specialists, Consultant Clinics ensure that patients receive prompt and convenient access to the best treatment available.

Diagnostic Imaging

We have a team of fully qualified and experienced radiographers on hand to undertake the X-Rays, Ultrasound and MRI scans. The results are assessed by leading consultants from top hospitals including Guy's and St Thomas' and King's College Hospitals.

Our state-of-the-art equipment includes:

- General X-Ray
- MRI scanning – a Siemens 1.5 Tesla Magnet which gives optimum image quality
- Ultrasound scanning

Benefits:

- In most cases, we can offer a same or next day appointment
- Results are given to the patient on a CD after the scan and reports are faxed within 24-48 hours to referring doctors/consultants
- A discount is offered to self-pay patients
- Insured patients can have their bills sent directly to approved insurance providers.

Orthopaedics

Our team of orthopaedic consultants specialise in the following:

- Arthritis
- Cartilage repair/replacement
- Cartilage tears inside a joint
- High performance hip and knee replacements
- Hip arthroscopy and management of hip pain
- Management of ligament tears
- Surgical ligament reconstructions
- Tendonitis

If onward referral is required, London Bridge Hospital ensures convenient access to consultants from a wide range of other specialties.
