

Diagnostic and Treatment Centre

City of London Medical Centre

ONE-STOP SURGICAL CLINIC

The One-Stop Surgical Clinic at City of London Medical Centre provides assessment, diagnosis and treatment planning for a range of conditions at a convenient location in the heart of the City.

The Clinic is run by world-leading Consultants, specialising in keyhole techniques for managing hernias, gallstones and heartburn.

Specialties covered by the One-Stop Surgical Clinic include:

GENERAL SURGERY

- Inguinal hernia
- Gallstones
- Incisional hernia
- Umbilical or Para-umbilical hernia
- Laparoscopic surgery
- Endoscopy (gastroscopy)
- Skin lesion
- Appendicectomy

SPECIALIST UPPER GI CONDITIONS:

- Gastro-oesophageal reflux
- Hiatus hernia
- Achalasia
- Difficulty swallowing
- GIST tumours

OESOPHAGEAL AND GASTRIC CANCER:

- Gastric cancer
- Oesophageal cancer
- Surgery for oesophageal cancer
- Surgery for gastric cancer

APPOINTMENTS

All patients will receive the relevant investigations during their visit including ultrasound, X-ray and MRI scans.

If a patient needs surgery, swabs and pre-assessment can be carried out during the visit without the need to visit a hospital and, if necessary, surgery and endoscopy can be booked within two weeks.
